Description

This is a 2009 Nautica 19' Diesel Jet lowboy. She has white tubes with blue, grey, and maroon accents. This tender was garage kept and it shows in the cushion and tube quality. The collapsible console provides an ultra low profile designed for large tender garages. The Hamilton jet drive makes for an even lower profile without the concern of a prop for guests and children. The inboard diesel only has 430 hours and runs great.
